## ABOUT ME

Hi there! My name is Sepideh Sabour and I am a 21-year-old designer and illustrator. I grew up in Iran, influenced by its rich culture and beautiful traditional art which I love its hidden symbolism and meanings behind common objects, and oftentimes, that fascination will play a role in my design and illustration. My background in graphic and interface design is extended by a multi-disciplinary skill-set that includes mobile and web interface design, user experience design, brand strategy and content strategy. I'm a self-professed jack of all trades who can never seem to stop creating anything. There is always an idea, a new picture running through my head. I am drawn to colour and the beauty around me. Growing up as a child I was constantly in my sketch book or having some kind of craft happening on the dining room table.

howdy and pleasure to meet you!

## WORK EXPERIENCE

Portfolio

[www.sepidehsabour.github.io](http://www.sepidehsabour.github.io)

ArtCode

Ongoing

Designer & Illustrator - **Mobile App & Website**

Design & Development.

Teska

Mar'16 - today

UI Designer & Graphic Designer - **Branding & Website**

At Teska as a Graphic Designer I had the responsibility of redesigning Brand including Stationary design and Advertisement design for social medias. Also redesigning the Website.

Poolam

Mar'16 - today

UI/UX Designer - **Mobile Apps & Website**

Poolam, a personal budget management app, had a clear rout of production. At poolam I started with benchmarks on the subject of user interaction and rules of payment in Iran, also I did analyse active competitors on the same subject. As a UI/UX Designer, I prepared experience maps to have clear User journey, producing Wireframes and designing the interface after Paper prototyping.

Hooshraavan

Sep'16 - Nov'16

Freelance UI/UX Designer - **Mobile App**

Working on a Smart Home and Smart Car Mobile app on both platforms iOS and Android in a collaborative team. In the project entitled Blesh, I had to interview stakeholders, doing research for competitives, producing Workflow diagrams, Storyboards and Wireframes. Plus to Interface design I had the responsibility for content audit.

ModernPal

Dec'14 - Aug'16

UI/UX & Visual Designer - **Mobile & Web Application**

I had the opportunity to work with a tech-savvy team and learn new things which enriched my knowledge of interface design. There at ModernPal, as a UI/UX Designer I primarily worked on the Content Management System and designed it's interface. I had the responsibility of producing flowcharts and wireframes, designing the interface, mocking up the product and content management, working alongside the project manager.

Kish-ist

Sep'14 - Jan'16

English Teacher - **kish institute of science and technology**

After passing teacher training courses and getting the TTC certificate, I managed to teach English as a part-time university job for Adults in Intermediate levels. Then afterwards I went behind and reached for TKT certificates.

Internship  
May'12 - Aug'12

Illustrator - Institute for the Intellectual Development of Children & Young Adults

Sketches and Illustrations for a story book in a couple of frames, using watercolour technique.

Soroush koodakan
